Alert Summary

This WHO Medical Product Alert refers to one lot of falsified Pfizer-BioNTech COVID-19 Vaccine identified in the Islamic Republic of Iran and reported to WHO in October 2021. The genuine manufacturer of Pfizer-BioNTech COVID-19 Vaccine has confirmed that the product listed in this Alert is falsified. The falsified product was reported at the patient level outside authorized and regulated supply chains and authorized vaccination programmes in the Islamic Republic of Iran.

Genuine Pfizer-BioNTech COVID-19 Vaccine is indicated for active immunization to prevent COVID-19 caused by the SARS-CoV-2 virus. The use of genuine COVID-19 vaccines should be in accordance with official guidance from national regulatory authorities.

Falsified COVID-19 vaccines pose a serious risk to global public health and place an additional

burden on vulnerable populations and health systems. The risk to patient health from falsified COVID-19 vaccines includes exposure to unknown and unsafe substances as well as delayed immunization against COVID-19 and could be life-threatening in some circumstances. It is important to detect and remove these falsified Pfizer-BioNTech COVID-19 Vaccines from circulation to prevent harm to patients.

The products identified in this Alert are confirmed as falsified on the basis that they deliberately / fraudulently misrepresent their identity, composition, or source:

- The product label and artwork are inconsistent with genuine Pfizer-BioNTech COVID-19 Vaccines
- The expiry date on the labels (09/2021) is falsified and inconsistent with the expiry date on genuine Pfizer-BioNTech COVID-19 Vaccine Lot EH9899
